

## EIGHT STEPS TO TRANSFORMING YOUR ORGANIZATION

- 1** Establishing a Sense of Urgency
  - Examining market and competitive realities
  - Identifying and discussing crises, potential crises, or major opportunities

- 2** Forming a Powerful Guiding Coalition
  - Assembling a group with enough power to lead the change effort
  - Encouraging the group to work together as a team

- 3** Creating a Vision
  - Creating a vision to help direct the change effort
  - Developing strategies for achieving that vision

- 4** Communicating the Vision
  - Using every vehicle possible to communicate the new vision and strategies
  - Teaching new behaviors by the example of the guiding coalition

- 5** Empowering Others to Act on the Vision
  - Getting rid of obstacles to change
  - Changing systems or structures that seriously undermine the vision
  - Encouraging risk taking and nontraditional ideas, activities, and actions

- 6** Planning for and Creating Short-Term Wins
  - Planning for visible performance improvements
  - Creating those improvements
  - Recognizing and rewarding employees involved in the improvements

- 7** Consolidating Improvements and Producing Still More Change
  - Using increased credibility to change systems, structures, and policies that don't fit the vision
  - Hiring, promoting, and developing employees who can implement the vision
  - Reinvigorating the process with new projects, themes, and change agents

- 8** Institutionalizing New Approaches
  - Articulating the connections between the new behaviors and corporate success
  - Developing the means to ensure leadership development and succession

## The Idea in Brief

Most major change initiatives—whether intended to boost quality, improve culture, or reverse a corporate death spiral—generate only lukewarm results. Many fail miserably.

Why? Kotter maintains that too many managers don't realize transformation is a *process*, not an event. It advances through stages that build on each other. And it takes years. Pressured to accelerate the process, managers skip stages. But shortcuts never work.

Equally troubling, even highly capable managers make critical mistakes—such as declaring victory too soon. Result? Loss of momentum, reversal of hard-won gains, and devastation of the entire transformation effort.

By understanding the stages of change—and the pitfalls unique to each stage—you boost your chances of a successful transformation. The payoff? Your organization flexes with tectonic shifts in competitors, markets, and technologies—leaving rivals far behind.

## The Idea in Practice

To give your transformation effort the best chance of succeeding, take the right actions at each stage—and avoid common pitfalls.

Stage	Actions Needed	Pitfalls
Establish a sense of urgency	<ul style="list-style-type: none"> <li>Examine market and competitive realities for potential crises and untapped opportunities.</li> <li>Convince at least 75% of your managers that the status quo is more dangerous than the unknown.</li> </ul>	<ul style="list-style-type: none"> <li>Underestimating the difficulty of driving people from their comfort zones</li> <li>Becoming paralyzed by risks</li> </ul>
